

***HEPAP Discussion***  
***April 1, 2016***

**HEPAP Meeting**

*Bethesda, MD; March 31 – April 1, 2016*

**Andrew J. Lankford**

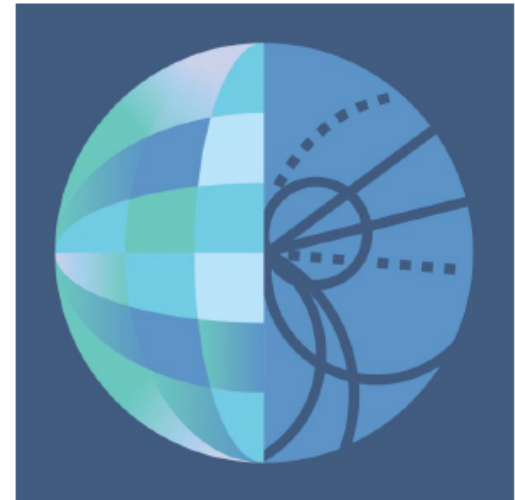

**HEPAP Chair**

*University of California, Irvine*

# From Jim Siegrist at DPF 2015

## Achieving the Global Vision for HEP

- **P5** provides the science drivers and recommended strategic priorities, particularly project priorities under various budget scenarios
- **HEPAP** is the “keeper” of the plan and reviews implementation and progress
- The **agencies**, as the stewards of the program, receive the advice and try to implement the plan as best they can with the actual budgets
- Strong **community** support continues to be crucial to achieving the P5 vision:
  - Coherent community message in support of vision gets noticed by appropriators
  - Focused community effort required to crisply execute the plan and flawlessly complete projects

# Agenda Overview

<b>Thursday AM</b>	
	Agency reports
	Fermilab report
<b>Thursday PM</b>	
	LIGO ASCR-HEP Partnerships
	APS DPF report HEPAP discussion
<b>Friday</b>	
	DOE reports Comparative reviews Research program
	LHC experiments reports LHCb, CMS, ATLAS HEPAP discussion & future topics

This AM: Budgets; How will budgets be used to advance the P5 plan?

# List of Reports for Future Meetings

In addition to regular follow-up on ongoing activities, e.g.:

- Development of implementation of P5 plan
- *etc.*

Reports (partial list):

- CPAD
- DPB
  
- Further reports on connections with other disciplines
- Reports from other regions (Europe, Japan, China, etc.)
  - e.g.: R&D in Europe on advanced acceleration techniques

**Suggestions for further topics welcome.**

**Dates of next meeting: in discussion with agencies**
