Dr. Dennis Kovar  
Associate Director  
Office of Science for Nuclear Physics  
U. S. Department of Energy  
19901 Germantown Road  
Germantown, MD 20874

Dear Robin, Michael and Dennis,

I am writing on behalf of HEPAP to forward to you the first report from the Neutrino Scientific Assessment Group (NuSAG). A joint subpanel of HEPAP and NSAC. NuSAG is co-chaired by Eugene Beier and Peter Meyers. The report contains an excellent general primer on neutrino physics and the key science questions that we aim to answer. It contains recommendations specifically on experiments on a United States Program in Neutrino-less Double Beta Decay. Both HEPAP and NSAC have approved this report.

Sincerely,
