Dr. Dennis Kovar
Acting Associate Director
Office of High Energy Physics
Office of Science
Department of Energy

Dr. Tony Chan
Assistant Director for Mathematical and Physical Sciences
National Science Foundation

Dear Dennis and Tony,

At the HEPAP meeting on November 29, 2007, the Particle Physics Project Prioritization Panel (P5) presented a status report on the HEP roadmap and made comments on issues that have come up since it presented its roadmap in October, 2006. This was the annual report as requested by the APS Division of Particles and Fields. It includes a recommendation on criteria for running the Tevatron Collider beyond FY09 as requested by the agencies.

HEPAP discussed the document in detail and unanimously approved the P5 report. Consequently I am now officially transmitting it to you.

Sincerely yours,

Melvyn J. Shochet
HEPAP Chair
