

# Charles Sleasman

“Chuck”

**Graduate Institution:** University of California, Berkeley

**Location:** Berkeley, CA

**Graduate Discipline:** Condensed Matter Physics

**Hometown:** Pittsburgh, PA

## Research Interests:

*I am a condensed matter experimentalist. My current research involves low temperature scanning tunneling microscopy (STM) of strained graphene on platinum.*

## About me:

*I recently finished my first year of graduate study at Berkeley. During this time I was a graduate student instructor (GSI), and I began research with Dr. Michael Crommie. Upon receiving a PhD I plan to obtain a research career in government or industry. I am a member of the American Physical Society and Sigma Pi Sigma Physics Honor Society. As an undergraduate at the University of Pittsburgh, I was awarded a Barry M. Goldwater Scholarship and a NASA Space Grant Scholarship among others. Beyond physics, I very much enjoy golfing, biking, and playing the banjo.*
